

FTT Global has developed the Currency Broker Solution (CB+) to provide a comprehensive administration and back end solution to individuals wishing to establish themselves as Currency Brokers.

CB+ is a web-based platform that enables the Currency Broker to book international payment and FX services for their clients without the administrative burden usually associated with setting up or managing this service.

The screenshot shows the 'Deal Execution' interface in a web browser. Red dashed lines connect specific fields and buttons to callout boxes on the right:

- Select the client from your list**: Points to the 'Client Id' dropdown menu.
- Input trade details based on the client needs**: Points to the 'Buy Currency' and 'Sell Currency' dropdown menus.
- Get client price (inclusive of all commissions)**: Points to the 'All Inclusive Rate' input field.
- Adjust your commission or accept default**: Points to the 'Residual Profit (GBP)' input field.
- Accept the deal**: Points to the 'Accept' button.

CB+ is a full service offering that provides the following key functionality:

- Online Client Registration and Notification
- Anti-Money Laundering Checking
- Deal Entry and Margin Calculation
- Deal Confirmation / Payment Confirmation
- Payment Processing
- Beneficiary Detail Capture and Storage
- Spot and Forward Transactions

This leaves the Currency Broker to focus on their core business of attracting and managing clients, safe in the knowledge that their processes are streamlined and their payments are being managed by FTT Global.

CB+ is available as a standalone web application or else can be purchased along side our White Label Solution to provide your clients with both Online and Offline ways to access your FX Rates and International Payment Service.

Once signed up, we can have you live on the system within a few days.

For more information or to arrange a demonstration, please contact us on **+44 (0)203 004 4444** or email **info@fttglobal.com**
