

Security Information for FTT Global Clients and Partners

The security of our clients' money is of paramount importance to us. Since opening in 2005, we have had a 100% track record of payments securely reaching the destination elected by our clients.

Secure Client Accounts

We have created "Client Segregated Accounts" at Barclays Bank Plc with a highly regulated protective mandate on each account. These accounts are held separately from our day-to-day operational accounts and all money legally remains the client's, not ours. We then facilitate payments from our clients to the payees that they have designated.

Secure Technology

We use the most sophisticated levels of protection available in the market today to validate and release payments – GemSAFE, 128 Bit Encryption, 3 Level Authentication – which can only be activated by key senior directors of FTT Global.

Our payment platform is constructed on the same "enterprise technology" used by major banks to transact billions in global currencies daily. All electronic communications between FTT Global and our clients are encrypted using the 128 Bit encryption algorithm, which is the global enterprise standard for all major financial websites.

Insurance Protection

Every single client transaction is insured for up to £1 million, and underwritten by Triple-A rated Insurer. This protects our clients' funds against negligence or fraud on the part of any FTT Global member of staff or third party.

Secure Processes

Our clients have complete control of how, to whom and when payments are set up. Only the client can instruct where and to whom payments are sent. FTT Global automatically emails clients to confirm payment details and to confirm when payments have been sent.

Strict Regulation

FTT Global is registered and operated in the UK, under English law. We are regulated by the Financial Services Authority (FSA) (Registration Number 503228) as an Authorised Payment Institution, the highest standard available in our industry. We are also regulated by H.M. Revenue and Customs (Registration Number: 12231114) reflecting our consistent policy of being transparent and auditable by both regulators and customers.

If you have any further questions or wish to discuss any aspect of security please contact support@fttglobal.com or call us on + 44 (0) 20 3603 8940.
